ADMINISTRATOR'S MEMORANDUM NO. 50

Transportation Policies and Assignment of Functions

The War Food Administration is presently charged with the administration of Section 201 of the Agricultural Adjustment Act of 1938, which authorizes the Secretary of Agriculture to appear before the Interstate Commerce Commission in matters involving rates, charges, tariffs, and practices relating to the transportation of farm products. The War Food Administration is also interested in proceedings of this kind in its capacity as a shipper of agricultural commodities and products. In order to avoid inconsistencies and conflicts before the Interstate Commerce Commission and similar regulatory bodies, all matters involving, or which may involve, appearances before the Interstate Commerce Commission or any State railroad or public utilities commission shall be referred in the first instance by the agency in which the matter arises to the Office of Distribution for review on policy questions in accordance with procedures governing the handling of such matters as established by the Office of Distribution. The Office of the Solicitor shall be responsible for presentation of such matters to the Interstate Commerce Commission or other regulatory body, if formal action is required.
